

Job Title: Full Stack Developer (React, React Native, Django)

Job Type: Full-Time

Experience: 0.6 to 1 year

Location: Full Time, Bangalore, India

Who We Are and What We Do

We are a dynamic technology solutions company dedicated to delivering innovative, impactful, and future-ready software applications. Our passionate team of developers, designers, and strategists collaborates to build scalable web, mobile, and cloud-based solutions tailored to the unique needs of businesses. We pride ourselves on bridging the gap between business challenges and technological advancements, empowering our clients with tools that drive growth, efficiency, and innovation.

We specialize in custom software development, responsive web solutions, and cross-platform mobile applications using modern frameworks like React.js, React Native, and Django. From designing robust RESTful APIs and integrating cloud platforms like AWS to crafting exceptional UI/UX designs, we focus on creating solutions that enhance user experiences and business processes. Guided by our core values of innovation, collaboration, and integrity, our mission is to empower businesses to thrive in an ever-evolving digital landscape.

Job Summary

We are seeking a motivated and skilled **Full Stack Developer** to join our growing team. The ideal candidate should have hands-on experience in front-end and back-end development using modern technologies. You will be responsible for developing, maintaining, and optimizing web and mobile applications, ensuring seamless functionality and an exceptional user experience.

Key Responsibilities

- **Front-End Development:**
 - Develop responsive web interfaces using React, HTML, CSS, and JavaScript.
 - Build and maintain mobile applications using React Native.
 - Collaborate with the UI/UX team to implement engaging and user-friendly designs.
 - Optimize applications for maximum speed and scalability.
- **Back-End Development:**
 - Develop robust APIs using Django and Django Rest Framework (DRF).
 - Integrate front-end and back-end systems to deliver seamless end-to-end solutions.
 - Implement secure authentication and authorization mechanisms.
 - Write efficient, reusable, and scalable code for server-side logic.
- **Database Management:**
 - Work with relational databases (e.g., PostgreSQL, MySQL) to manage data efficiently.
 - Design and implement database schemas.

- **Testing and Debugging:**
 - Perform code reviews and debug technical issues across applications.
 - Write and maintain unit and integration tests.
- **Collaboration:**
 - Work closely with cross-functional teams to gather and define requirements.
 - Provide technical guidance and innovative solutions to enhance product development.

Educational Qualification

- **Bachelor's Degree:** A degree in Computer Science, Information Technology, or a related field.
- **Certifications:** Relevant certifications in front-end and back-end technologies are a plus, showcasing expertise and commitment to continuous learning.
- **Project Experience:** Prior experience working on projects using the mentioned technologies (React.js, React Native, Django, Django Rest Framework, etc.) is highly desirable. Individual or freelance projects demonstrating your ability to apply these skills are a significant advantage.

Required Skills

Frontend:

- Proficiency in React.js, React Native.
- Strong knowledge of HTML, CSS, JavaScript, and Bootstrap.
- Familiarity with state management libraries like Redux or Context API.
- Experience with responsive and mobile-first design principles.

Backend:

- Experience with Django and Django Rest Framework.
- Strong understanding of RESTful API design and development.
- Knowledge of relational databases (e.g., PostgreSQL, MySQL).

General Skills and Competencies

- **Basic Understanding of Git:** Proficiency in version control systems like Git to manage and track code changes effectively.
- **Third-Party API Integration:** Ability to integrate external APIs seamlessly into applications for added functionality.
- **Agile Development Methodologies:** Familiarity with Agile principles and practices, ensuring collaborative and iterative development.
- **Problem Solving:** A knack for identifying issues and implementing efficient, innovative solutions.
- **Critical Thinking:** Analytical skills to assess challenges and make informed decisions.

- **Teamwork:** Strong collaboration skills to work effectively within a team environment.
- **Meeting KPI Index:** Focused on achieving key performance indicators and delivering results within specified timelines.
- **Work Under Pressure:** Ability to maintain performance and quality under tight deadlines and challenging circumstances.

Compensation and Perks

For freshers with 0.6 to 1 year of experience or recent graduates in the relevant technologies (React.js, React Native, Django, etc.), the starting salary will range between **₹15,000 to ₹25,000 per month**, based on performance, skills, and project experience.

Perks:

- **Food and Accommodation:** Provided as part of the package to ensure a comfortable work-life experience.
- Opportunity for salary reviews and the possibility of conversion to a full-time position based on performance, with potential for additional benefits and compensation.

Additional Note on Role

The corresponding role is **contractual**, with the possibility of conversion to full-time employment based on performance and business needs. This structure provides an excellent opportunity to showcase your skills and contribute meaningfully to our projects, with potential for long-term growth within our team.
